

EXPERIENCE

Graphic Design Intern

Brainchild • Apr. 2026 — Jun. 2026

Collaborated on projects, such as Big Way Hot Pot, by contributing to brainstorming, vision boarding, and iterative design revisions based on critical feedback.

Conceptualized and executed visual identities for 3+ diverse clients; this included establishing color systems and distinct brand themes.

Followed a strict daily practice routine; designed 3-7 conceptual posters each day to refine typography, composition, and personal visual style.

Fostered a collaborative studio culture by providing constructive critiques and design feedback on team deliverables to ensure quality control.

Product Design Intern

Synexus Labs • Sept. 2025 — Dec. 2025

Designed 3+ low and high-fidelity wireframe iterations weekly to align investor feedback, and product goals for a VC-backed AI startup.

Established the foundational design system, creating the color theme, typography scales, buttons, and overall UI to ensure product consistency.

Integrated AI workflows and tracking tools (Claude, GPT, Cursor, Gemini, and Jira) to manage shifting priorities, and accelerate delivery times.

Administrative Assistant

Emily Carr University • May 2023 — Jul. 2024

Managed front desk operations and trained new staff while handling 40+ daily incoming calls and emails.

Tracked campus logistics, mail distribution, and supply inventory every 3 days to manage university-wide ordering requirements.

Drafted and dispatched university-wide mass emails to deliver critical communications to 1100+ faculty and students regarding daily campus operations, policy updates, and academic announcements.

PROJECTS

Forge

BCIT • Aug. 2025 — Dec. 2025

Conducted user research, developed UX/UI solutions, and designed Forge, an AI-powered platform that helps students explore in-demand skilled trades through personalized career guidance and interactive career simulations.

Skills: UX Research, AI Experience Design, Prototyping

Mosaic

BCIT • Jan. 2025 — May. 2025

Designed Mosaic, a project creation app that helps users overcome creative barriers by providing personalized project ideas, guided workflows, and tools to organize and showcase their work. Conducted research, and developed UX/UI design.

Skills: UX Research, Visual Design, Brand Identity

EDUCATION

Digital Design and Development

British Columbia Institute of Technology
Sept. 2024 — Jun. 2026

Diploma in Digital Design

With Distinction; ranked in the top 10% of graduating class.

VOLUNTEER

Cohort Representative

BCIT • Sept. 2024 — Jun. 2026

Represented student perspectives, and improved the learning experience of the program by gathering feedback and communicating concerns between classmates and faculty.
